**How faculty are using digital technology
to meet pedagogical goals**

Monday, Oct. 2, 2017 • 1 - 4 p.m.

The CTL hopes to highlight a range teaching experiences and digital technology solutions by faculty from across the Yale community, with opening remarks by Dean Marvin Chun and two faculty panels. Learn more and register online: ctl.yale.edu/TeachingTechForum

Dr. Marvin Chun, Dean of Yale College, will reflect on his teaching experience and how he has incorporated technology into the classroom. Dean Chun is also the Richard M. Colgate Professor of Psychology and a Professor of Neurobiology.

“Yale College students have benefited greatly from Professor Chun’s dedication to teaching and learning, as evidenced by the popularity of his ‘Introduction to Psychology’ course and his teaching awards — the Lex Hixon Prize for Teaching Excellence in the Social Sciences and the Phi Beta Kappa William Clyde DeVane Award to recognize character, scholarship, and distinguished undergraduate teaching,” said Yale President Peter Salovey, upon the Dean Chun’s appointment.
